

## Forgiving Tour Model for Gaining Long Distance Easily T//WORLD TW757 Type-D PLUS

HONMA GOLF CO.,LTD.(Head office: Tokyo Minato-ku / CEO Yasuki Ito) is releasing T//WORLD TW757 Type-D PLUS.

This driver pluses great distance performance, forgiveness, and draw-biased function to existing TW757 drivers for golfers who want to easily get long distance with a tour model.

T//WORLD TW757  
Type-D PLUS

「TW757 Type-D PLUS」

## The World's First Carbon Slot

The thickness of the sole slit is thinned to maximize the repulsion performance, and it is reinforced with carbon to maintain the strength. As a result, it succeeds in maximizing repulsion performance. \* Patent applied for.

## Keel Design · Back Weight

By placing a 9g tungsten weight backward on the outside of sole, it achieves low CG design with deep CG simultaneously.

By removing the weight at the toe side on Type-D and moving the position of its keel design as well as back weight closer to the heel, the CG angle is increased for more draw bias performance.

## Forgiving Lightweight Shaft Intended for More Wider Ranges of Golfers

The rigidity of the butt and tip side is increased, by suppressing the rigidity of the center part. It generates a optimal bending and steadiness, and that enables to take a timing easier and brings comfortable feeling for swing. The shaft also achieves the high launch and the trajectory with low spins.

LOFT (DEG.)	9.0	10.5
HEAD MATERIAL	BODY : Ti811 + Partial Sole Carbon FACE : Ti6-4 / Casting	
HEAD VOLUME (cm <sup>3</sup> )	455	
LIE ANGLE (°)	58.0	
LENGTH	45.5	
SWING WEIGHT/TOTAL WEIGHT(g)		
VIZARD for TW757 45 S	D1.5 / approx. 301	
VIZARD for TW757 45 R	※	D1 / approx. 298

Made in Japan/※Order Option
